

# MCUBE and MGLIDE

**the clever integration solution in full color for sheet and web**

## MCUBE + MGLIDE — Flexible solutions for sheets and web

More and more products with shorter life cycles, smaller print runs and many varying customers. The answers from MPRINT are full color late-stage customization solutions with best-in-class integration modules from a single source - clever, compact, comprehensive.

Never before has it been so easy to successfully integrate excellent digital printing into automated production systems such as packaging and label printing machines, finishing lines or mailing systems. The brand new MCUBE 4C-360 integration system fits it all and delivers an outstanding print result - full color, fully digital and fully flexible to meet almost any requirement.

**DIGITAL PRINT**  
**SIMPLE. INTUITIVE. POWERFUL.**

### Dare to dominate! Digital.

At MPRINT, we understand the dynamics of the printing and packaging industry and the increasing demands for efficiency and flexibility. That's why we proudly present the MCUBE 4C-360 - our revolutionary solution for your printing needs. The MCUBE 4C-360 is more than just a printing system! It is a comprehensive integration unit that fits seamlessly into your existing printing and converting systems.

Whether for narrow-web or sheet-fed, the MCUBE 4C-360 offers exceptional flexibility and quality in an ultra-compact design that maximizes your productivity, saves space, reduces operating costs and increases sustainability.

Expand your production capacity with the MCUBE 4C-360 integration solution without having to invest in new and expensive complete systems. Stay one step ahead with the latest technology from MPRINT.

Contact us to find out in detail how the MCUBE 4C-360 can transform your business.

### Ultra compact. Without compromise! The new narrow web integration solution.

With versatility at your fingertips, the MCUBE web 4C-360 offers unique flexibility, enabling your business to handle a wide range of print jobs with ease.

Despite its ultra-compact design, the MCUBE web 4C-360 delivers outstanding print quality in full color. At the forefront of the industry, the MCUBE web 4C-360 uses the latest printing technology to provide you with a fast, efficient and reliable digital printing solution. Whether you're printing custom labels or other flexible web, the MCUBE web 4C-360 stands for innovation and performance.

Stay flexible to react quickly to market changes and seize new business opportunities.

### Discover the revolution in sheet-fed solutions for digital printing!

Integrating first-class digital printing into automated production lines for products such as sheets, folding cartons, blister cards, mailings and packaging is easier than ever. With the newly developed MCUBE flat 4C-360 integration system, which can be used in a variety of ways, excellent printing results can be achieved: brilliantly colored, completely digital and extremely variable to meet a wide range of needs.

Discover completely new possibilities in full color customization at the last possible moment in production and increase sustainability by reducing waste.

Our technology ensures pixel-perfect placement, minimizing the need for reprints and increasing your profitability. In addition, fast process times increase your output without compromising on quality.

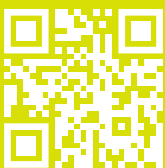

## MGLIDE sheet 400

At the heart of the fast-paced world of digital printing, where precision and efficiency are key, the MGLIDE sheet 400 stands out with its outstanding pixel accuracy and exceptional reliability. This innovative system is specifically designed to handle every sheet with exemplary precision, ensuring your print results are flawless.

Set new standards in the printing industry. Your customers will love it. Experience how real precision makes the difference!

DIGITAL PRINT  
SIMPLE.  
INTUITIVE.  
POWERFUL.
